Subject: Carolina Water Service rates

Dear Sir/Madam:

I live in Lake Wylie, SC, moving here in 2003, after living in several Southeastern states over the past 40+ years (South Carolina, North Carolina, and multiple locations in Georgia). Upon retiring to a condo here, my wife and I were shocked at the then water/sewer rates here. So much so, that we questioned our Realtor, and asked him to confirm the very high rates at that time, ranging in the \$ 60-70 monthly price range.

Our rates now are in the \$ 80-90+ monthly range.

Now, they are asking for another rate increase of between 15 to 30 percent?

We feel that, for two senior citizens, living in a condo, our rates are already ASTRONOMICALLY high!

We implore you to deny their request, in total!

Respectfully,

Paul and Peggy Burley
